

White Label Billing

Altaworx White Label Billing elevates your business by cutting the red tape out of billing and eliminating the need to register with federal, state, and local taxing authorities. Our cloud-based billing platform receives ACH or credit card transactions and allows for setup of recurring and non-recurring billing for your business. Quick and easy setup helps get your business established fast. Setup customized operations and support consultation with Altaworx, as needed, to help optimize your business performance.

How It Works

Our team works with your business to put a system in place to invoice your customers, collect receivables, and stay in compliance with regulatory taxes & fees.

Benefits

Focus

Fine-tune your brand and product, letting Altaworx help build your business.

No Billing Confusion

Our billing platform allows for outgoing bills to be branded with your business logo.

Quick Turnaround

Fast and easy setup reduces costs for companies and gets your product to market faster.

Reliable

Integrated with Cisco/Jasper M2M Platform for usage billing.

Business Setup

No need to register with state, federal and local taxing authorities. All compliance and tax payments are included in the Billing Incubator. Includes Exemptions, Taxation, and Compliance provided by GSA (The only SSAE certified Telecom compliance company in the US). Proper taxation and compliance services protect you from future tax liabilities which can reduce the value of your company.

Future Outlook

Provides a tax record database for future due diligence audits when merging or selling a company.
